## Frontend React Developer

✉ ipsitapriyadarsini2024@gmail.com ☎ +91 8917338373 🌐 [Linkedin](#) 📁 [Portfolio](#) 🏠 [Github](#) 📍 Bangalore

### Summary

Front-End enthusiast and a continuous learner. Technically Skilled Front-End React Developer with **4+ Year** experience in building Web & Enterprise Applications using React, JavaScript, Restful API, CSS, Bootstrap, and HTML while following Agile Methodology. Always ready for New Challenges and adapting to Deliver.

### Technical Skills

**Frontend Development:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Vue3.js, Nuxt3.js, Tailwind, CSS, Bootstrap, Material-UI, SASS, Unit testing, Playwright, End to end testing

**Backend Development:** Node.js, MongoDB, Supabase, Restful API, SSR

**State Management Tools:** Redux, Pinia, Saga

**Tools & Platforms:** JIRA, Git/GitHub, Bitbucket, VS code, Cursor

### Experience

#### Hanatech pvt. Ltd.(Frontend developer)

Mar/2025 – June/2025 | Bangalore

- Optimized 5+ custom React Hooks, Javascript ES6 across 10+ MUI components and fixed bugs, improving performance by 20% and reducing code duplication by 25%.
- Developed Playwright end-to-end tests, reducing production bugs by 30%, and implemented mock APIs for reliable backend simulation.
- Followed Agile methodology using Jira boards to manage 25+ tasks across 3 sprints, boosting sprint efficiency by 20% and ensuring 95% on-time delivery.

#### Proxima Systems (Frontend developer)

Aug/2023 – Feb/2025 | Remote

- Built AI Flow Mapper using Vue 3, TypeScript, and Tailwind, generating dynamic mind maps via Mind Elixir.
- Created Supabase RPC functions to cut API calls by 30% and improve response time by 20%.
- For Resolve India Pvt. Ltd., digitized payroll workflows using React, Redux-Saga, Next.js, and TypeScript, eliminating Excel use and doubling process efficiency.
- Developed reusable and modular UI components in React and styled them using Sass to ensure consistent theming and maintainability.

#### TheMathcompany (Product Engineer analyst)

July/2022 – May/2023 | Bangalore

- Contributed with 4 team members for the Danone client closely to gather and analyse requirements for the Cross-tab tool, enabling data visualization with multiple filter combination using React Js, SCSS.
- Streamlined deployment processes by creating Docker images, reducing deployment time by 40%.

#### Bookingjini (React developer)

Nov/2021 to June/2022 | Bhubaneswar

- Built and optimized responsive web apps using React, Next.js, Redux, ES6 and TypeScript, increasing mobile engagement by 25% and app performance by 70%.
- Integrated RESTful APIs and enhanced onboarding flows to improve user experience and customer satisfaction by up to 100%.
- Streamlined development by creating dynamic dummy JSON, reducing backend dependency by 60%.
- Utilized Sass features like variables, mixins, and functions to maintain scalable and DRY CSS architecture across the application.

### Projects

**Flavour fiesta:** A full-stack cooking application built using Next.js (with SSR and CSR), NextAuth for authentication, MongoDB for the database, TypeScript, Redux, and Tailwind css. (In progress) [Link](#)

**Todo list:** As a user, I can read a list of tasks. add a task using the mouse or keyboard. mark any task as completed, using the mouse or keyboard. delete any task, using the mouse or keyboard. edit any task, using the mouse or keyboard. view a specific subset of tasks: All tasks, only the active task, or only the completed tasks.

### Awards & Certifications

**Node.JS Certification from Udemy- [Link](#)** Certification covering Node.js fundamentals and practical applications.

Star performer of the quarter award from Proxima system 🏆

### Education

B. TECH (Computer Science) College of engineering & technology, BPUT, BBSR, Odisha

2017 | CGPA: 7.1
