## Software Developer

✉ ipsitapriyadarsini2024@gmail.com ☎ +91 8917338373 🌐 [LinkedIn](#) 📁 [Portfolio](#) 🏠 [Github](#) 📍 Bangalore

### Summary

Experienced Developer skilled in building scalable, user-focused, responsive web applications with modern technologies like React js, Javascript, Next js, Tailwind, Nuxt 3., Html, css, Scss. Passionate about clean code, innovation, and delivering impactful solutions.

### Technical Skills

**Frontend Development:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Vue3.js, Nuxt3.js, Tailwind, CSS, Bootstrap, Material-UI, SASS

**Backend Development:** Node.js, MySQL, MongoDB, Supabase, Restful API, SSR

**State Management Tools:** Redux, Pinia, Saga

**Tools & Platforms:** JIRA, Git/GitHub, Docker

### Experience

#### Proxima Systems (Frontend developer)

Aug/2023 – Present | Pune, India

- **AI Flow Mapper:** Developed an AI-driven product using **Vue 3, NuxtJs 3, Typescript** and **Tailwind** to dynamically generate **Mind maps** based on user commands using the **Mind elixir** package.
- Collaborated with backend developers to design and implement **RESTful APIs** using **NodeJS, NuxtJS, Supabase and MySQL** resulting in a 25% reduction in development time.
- Optimized backend performance by creating Supabase **RPC functions**, reducing API calls by 30%, and improving response times by 20%.
- Customized third-party API's like **Chargebee** using **Node js** for seamless integration, enabling faster integration with subscription systems and reducing setup time by 15%.
- **Resolve India:** Improved for the client Resolve India pvt. Ltd. To visualize the Payroll process using **React Js, Redux(Saga), NextJs, JavaScript, Typescript**, eliminating manual Excel tasks and increasing process efficiency by 100%.

#### TheMathcompany (Product Engineer analyst)

July/2022 – May/2023 | Bangalore, India

- Contributed with 4 team members for the **Danone** client closely to gather and analyse requirements for the **Cross-tab tool**, enabling data visualization with multiple filter combination using **React Js, SASS**.
- Delivered high-quality software on time and within budget by utilizing **agile methodologies** and tools like **JIRA**, contributing to a 95% on-time delivery rate.
- Streamlined deployment processes by creating and managing **Docker** images, reducing deployment time by 40%.

#### Bookingjini (React developer)

May/2021 to June/22 | Bhubaneswar, India

- Built and maintained **responsive web** apps using **React, Next.js, Redux, TypeScript**, leading to a 25% increase in mobile engagement.
- Integrated **RESTful APIs**, enhancing data flow and user interactions.
- Enhanced an onboarding system to streamline **hospitality** bookings and boost customer satisfaction up to 100%.
- Improved the performance of existing applications by **optimizing code** and implementing new features up to 70%.
- Simplified local development by implementing dynamic dummy JSON format, reducing backend dependency by 60%.
- Ensured seamless collaboration and version control using **Git/GitHub**, reducing merge conflicts by 30%.

### Projects

**Flavour fiesta:** A full-stack cooking application built using Next.js (with SSR and CSR), NextAuth for authentication, MongoDB for the database, TypeScript, Redux, and Tailwind CSS. (In progress) [Link](#)

### Certifications

**Node.JS Certification from Udemy - [Link](#)** Certification covering Node.js fundamentals and practical applications.

### Awards

Star performer of the quarter award from Proxima system 🏆

Employee of the month award from Bookingjini 🏆

### Education

B. TECH (Computer Science) College of engineering & technology, BPUT, BBSR, Odisha

2014 – 2017 | CGPA: 7.1
